The Web

HyperText Markup Language (HTML)

```
</span>)<sup id="cite_ref-slate_2-0" class="reference"><a href="
#cite_note-slate-2">[2]</a></sup> is an <a href="/wiki/Internet_meme"
title="Internet meme">Internet meme</a> that became popular in 2013.
The meme typically consists of a picture of a <a href="/wiki/Shiba_Inu"
title="Shiba Inu">Shiba Inu</a> accompanied by multicolored text in <a href="/wiki/Comic_Sans" title="Comic Sans">Comic Sans</a> font in the foreground. The text, representing a kind of internal monologue, is deliberately written in a form of <a href="/wiki/Broken_English" title="Broken English">broken English</a>.<sup id="cite_ref-Gawker_1-1" class="reference"><a href="#cite_note-Gawker-1">[1]</a></sup>
```

Learning HTML Resources

- Codecademy's interactive web coding <u>course</u>
- Shay Howe's HTML & CSS <u>tutorial series</u>
- w3schools HTML <u>tutorial</u>

Header Elements

HEADER TEXT

<h1>My First Website</h1>

OPENING TAG

CLOSING TAG

```
<h1>Header 1</h1>
<h2>Header 2</h2>
<h3>Header 3</h3>
<h4>Header 4</h4>
<h5>Header 5</h5>
<h6>Header 6</h6>
```

Lists

Ordered Lists

```
     The Shawshank Redemption, 1994
     The Godfather, 1972
     The Godfather: Part II, 1974
     The Dark Knight, 2008
     Schindler's List, 1993
```

```
甲

```

HTML Skeleton

```
<!DOCTYPE html>
<html>
    <head>
        <meta charset="UTF-8">
        <title>Web Art</title>
    </head>
    <body>
        <h1>Web Art</h1>
    </body>
</html>
```

Paths to Images and Links

Absolute Paths

Absolute paths are full web addresses. They typically start with one of the following:

- http://www
- https://www
- //www

```
<a href="http://www.google.com">Google</a>
```

Relative Paths

Relative paths are web addresses relative to the current document. Examples:

- about.html
- images/cat-bullet.png
- ../other-page.html

About

IFrame Embedded Content

(YouTube, Maps, Etc.)

Embedding Sites

<iframe src="https://en.wikipedia.org/wiki/Giant_panda"></iframe>

Attributes

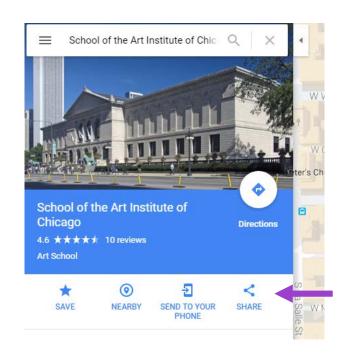

Value	Description
left right top middle bottom	Not supported in HTML5. Specifies the alignment of an <iframe> according to surrounding elements</iframe>
1 0	Not supported in HTML5. Specifies whether or not to display a border around an <iframe></iframe>
pixels	Specifies the height of an <iframe></iframe>
URL	Not supported in HTML5. Specifies a page that contains a long description of the content of an <iframe></iframe>
pixels	Not supported in HTML5. Specifies the top and bottom margins of the content of an <iframe></iframe>
pixels	Not supported in HTML5. Specifies the left and right margins of the content of an <iframe></iframe>
text	Specifies the name of an <iframe></iframe>
allow-forms allow-pointer-lock allow-popups allow-same-origin allow-scripts allow-top-navigation	Enables an extra set of restrictions for the content in an <iframe></iframe>
yes no auto	Not supported in HTML5. Specifies whether or not to display scrollbars in an <iframe></iframe>
URL	Specifies the address of the document to embed in the <iframe></iframe>
HTML_code	Specifies the HTML content of the page to show in the <iframe></iframe>
pixels	Specifies the width of an <iframe></iframe>
	left right top middle bottom 1 0 pixels URL pixels text allow-forms allow-popups allow-same-origin allow-scripts allow-top-navigation yes no auto URL HTML_code

Embedding Google Maps

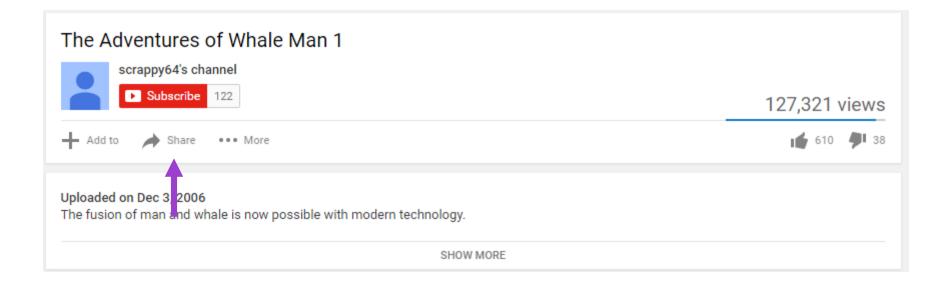

- Go to maps.google.com
- Find a <u>location</u>
- Click Share

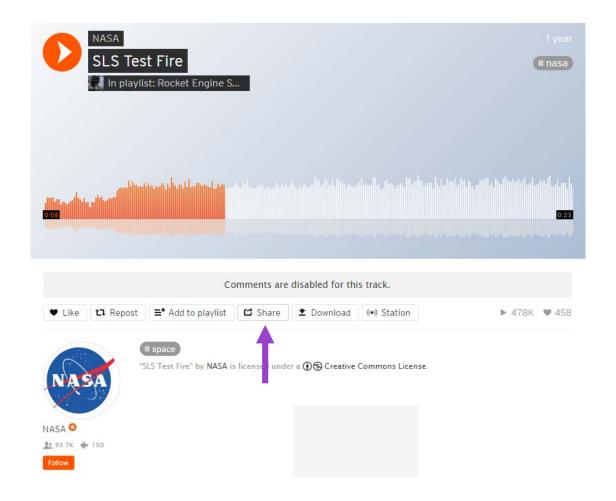

Embedding YouTube

Video and Audio

Video

Tutorial on video in html: html5rocks.com

```
<video src="video/electric-sheep-1.mp4">
    Your browser does not support the video element!
</video>
```

Optional Attributes

Attribute	Value	Description
autoplay	autoplay	Specifies that the video will start playing as soon as it is ready
controls	controls	Specifies that video controls should be displayed (such as a play/pause button etc).
height	pixels	Sets the height of the video player
<u>loop</u>	loop	Specifies that the video will start over again, every time it is finished
muted	muted	Specifies that the audio output of the video should be muted
poster	URL	Specifies an image to be shown while the video is downloading, or until the user hits the play button
preload	auto metadata none	Specifies if and how the author thinks the video should be loaded when the page loads
src	URL	Specifies the URL of the video file
width	pixels	Sets the width of the video player

```
<video
    src="video/electric-sheep-2.mp4"
    loop
    autoplay
    width="1000">
    Your browser does not support the video element!
</video>
```

Audio

Tutorial on audio in html: <u>thinkful.com</u>

```
<audio src="audio/nasa-sls-test-fire.mp3">
   Your browser does not support the audio element.
</audio>
```

Attributes

Attribute	Value	Description
autoplay	autoplay	Specifies that the audio will start playing as soon as it is ready
controls	controls	Specifies that audio controls should be displayed (such as a play/pause button etc)
loop	loop	Specifies that the audio will start over again, every time it is finished
muted	muted	Specifies that the audio output should be muted
preload	auto metadata none	Specifies if and how the author thinks the audio should be loaded when the page loads
src	URL	Specifies the URL of the audio file

```
<audio
    src="audio/nasa-chorus-radio-waves.mp3"
    type="audio/mp3"
    preload="auto"
    autoplay
    controls>
    Your browser does not support the audio element.
</audio>
```
